

**Team Name: KLEMP**

**Report Number: 12**

**Reporting Week: 12**

**Summary of work completed in prior week:**

Successfully created a database to store information on buildings and navigation. We've continued polishing the user interface and standardization of it.

**Summary of work planned for next week:**

Implementing the search feature, have finalized pictures of buildings/campus. We want to make at least one search feature implemented and one path from a building complete to show our audience at the presentation.

**Open issues and action plan to resolve them:**

None to report

**Meeting summary**

3/29 5-6 pm discord voice call to discuss the user interface of the project and how we will implement navigation features including the idea of having hidden objects that are the path between buildings. We discussed the tasks that need to be done for the presentation soon, mainly in terms of the back end and database.
